Acta Chemica Malaysia (ACMY)

Editorial

Due to rapid advances in scientific research and industrialization, there is more need of advanced and durable study in chemistry and chemical engineering field. Acta Chemica Malaysia (ACMY) is an open access as well as print journal and widely covers all branches of chemistry and chemical engineering. It provides a medium for mutual communication between the academia and the industry all over the world. The Journal welcomes original research articles; research notes or short communications and topical or interpretative review articles (previously unpublished) in all established areas of chemistry, chemical engineering and related fields in English Language.
